

## High gloss finish

---

### FEATURES

HIGH GLOSS FINISH is a silicone-free polishing cream made from premium waxes that removes matte and weathered spots on plastic surfaces. The color is refreshed, and the treated surfaces are protected from dirt, loss of gloss, and fading by a durable wax film.

### APPLICATION

Polishing cream for weathered and matte surfaces with protective film properties. Suitable for GRP boats, plastic surfaces, and chrome surfaces.

### PRODUCT DATA

- Packaging: 200g, 500g
- Color: White
- Specific Weight: 1.0 kg/l

### PROCESSING

HIGH GLOSS FINISH is applied with a soft cloth or cotton wool, and the surface is thoroughly polished with circular motions and light pressure. Any remaining cream is removed with polishing cotton wool, and the surface is brought to a high gloss. If necessary, repeat this process. HIGH GLOSS FINISH can also be applied by machine with a slow-speed buffing disc (maximum 2000 rpm with a disc diameter of 13 cm) or POLISHING PAD LAMBSWOOL. Continuously change the position to prevent the surface from becoming too warm.

HIGH GLOSS FINISH is silicone-free, so future coating systems will not be affected. However, we generally recommend cleaning the surfaces with suitable degreasers and cleaning agents before repainting.

### PRECAUTIONS

For information on handling the products and disposal, please refer to the valid safety data sheet and the relevant information sheets of the Chemical Industry Employers' Liability Insurance Association. The above information, particularly the suggestions for processing and using our products, is based on our knowledge and experience under normal conditions. Due to the different materials, substrates, and varying working conditions, no guarantee of a work result or liability, regardless of the legal relationship, can be derived from these instructions or from oral advice unless intent or gross negligence can be attributed to us. The user must prove

that they have transmitted all the necessary knowledge required for proper and successful evaluation in writing, timely, and completely to us. Third-party rights must be observed. Furthermore, our respective sales and delivery conditions apply. The latest technical data sheet, which should be requested from us, applies.
