

Liquide boat wax

FEATURES

LIQUID BOAT WAX is a liquid sealing emulsion based on carnauba wax. It contains pure silicones for long-term and UV protection. Additionally, LIQUID BOAT WAX includes very fine, high-quality abrasives that have cleaning properties without being abrasive.

APPLICATION AREA

For long-term preservation of paint, metal, plastic, gelcoat surfaces, etc..

PRODUCT DATA

- **Packaging:** 500 ml
- **Color:** Beige (liquid dispersion)
- **Specific weight:** 0.93 kg/l

PROCESSING

The surfaces to be sealed should be cleaned and polished with BOAT CLEANER or BOAT POLISH. Apply LIQUID BOAT WAX generously to the cleaned surface using a sponge or soft cloth in circular motions. After allowing the wax to sit for a few minutes, it can be polished by hand without pressure using a soft, dry, and clean cotton cloth. The sealing should not be applied with a polishing machine.

LIQUID BOAT WAX is easy to polish, even if the liquid wax has already dried.

PRECAUTIONS

For instructions on handling the products and disposal, please refer to the current safety data sheet and the relevant guidelines from the Chemical Industry Trade Association. The above information, especially the suggestions for processing and using our products, is based on our knowledge and experience under normal conditions. Due to varying materials, substrates, and differing working conditions, no warranty for the work result or liability, regardless of the legal basis, can be derived from these instructions or any oral advice unless there is a case of intent or gross negligence. In this case, the user must prove that he has provided us in writing with all necessary knowledge for proper and successful assessment in a timely and complete manner. Third-party rights must be observed. Otherwise, our general terms and conditions of sale and delivery apply. The latest technical data sheet should be requested from us.
